### Wire Duct

#### Wide Slot

**Features:**
- Wide fingers giving additional cable support
- Smooth edges for worry-free wiring and handling
- Scoreline at base of finger allows tab removal without the need for tools
- Rigid PVC, UL94 Flammability rating V-0
- Service temp. 5° to 140°F (-15° to 60°C)
- 0.31” slot width, 0.47” tab width
- Cover included with duct

#### Narrow Slot

**Features:**
- Ideal for use with high-density narrow terminal blocks where more access is required
- Improve appearance of panels with cables in best position
- Scoreline at base of finger allows tab removal without the need for tools
- Rigid PVC with UL94 Flammability rating V-0
- Service temp. 5° to 140°F (-15° to 60°C)
- 0.16” slot width, 0.24” tab width
- Cover included with duct

Wire Duct, cont’d

Spare Cover

- Shock resistant technopolymer on PVC base material
- UV resistant
- Self-extinguishing UL94 V-0 Flammability
- Compression resistant: 320N
- Fittings have inlet with self-locking thread
- Fittings include lock nut
- Operating temperature: 23 to 140 °F (-5 to 60 °C)
- RAL 7035 Gray or RAL 9005 Black available

Wire Protection

Universal Spiral Wrap

- Fast and economical grouping of wire bundles
- Flexible connections between panel and door

Colors:
- Natural - Translucent polyethylene
- White - Self-extinguishing polyethylene
- Black - Polyethylene

Flexible Liquid Tight Conduit

- Shock resistant technopolymer on PVC base material
- UV resistant
- Self-extinguishing UL94 V-0 Flammability
- Compression resistant: 320N
- Fittings have inlet with self-locking thread
- Fittings include lock nut
- Operating temperature: 23 to 140 °F (-5 to 60 °C)
- RAL 7035 Gray or RAL 9005 Black available
