FMX Launches the “Tough Drive” Series

TD400 “Tough Drive” AC Drives Available at FactoryMation

Canton, GA – January 22, 2019 – FactoryMation introduces the new FMX TD400 “Tough Drive,” a rugged AC drive for tough applications. FMX’s Tough Drive is the ideal user-friendly solution for demanding motor control applications. The TD400 series is designed to operate at the limits of typical line voltages found in the U.S. market: 208-240V, +10%/-15% or 380-480V, +10%/-15%. TD400 series AC Drives are also fully rated for operation at a high 128°F (50°C). The wide voltage specification and high operating temperature are part of what makes the TD400 Tough Drive series robust and built to last. These drives feature Volts per Hertz, Sensorless Vector, and Permanent Magnet control modes. The completely free TD-LINK software is available through FactoryMation’s website and offers an easy-to-use interface for programming the Tough Drive series. The series is covered by a two-year warranty and includes three distinct models: 240V single- or three-phase input models rated for 0.5 to 3HP, 240V three-phase input models rated for 5 to 40HP, and true 480V three-phase input models rated for 1 to 75HP. Starting at \$174, the FMX TD400 Tough Drive is just another example of FactoryMation’s commitment to offering an unmatched value for industrial control and automation products.

FactoryMation is a nationwide supplier of industrial control products including AC drives, Motors and Motor Controls, Enclosures, HMIs, PLCs, Sensors, and more. Through the cultivation of direct relationships with world-class manufacturers from across the globe, FactoryMation offers competitive pricing on high-quality industrial-grade products. Over 40,000 products are strategically stocked at their distribution center near Atlanta, Georgia and other conveniently located third-party warehouses ensuring that orders ship promptly and arrive when needed. Knowledgeable customer support is available to assist with product selection to make sure you get the items that best fit your application requirements. When considering product quality, availability, delivery, price, and support, you will see FactoryMation is committed to offering an unmatched value and why they should be your go-to source for industrial control and automation products. Orders can be made quick and easy via online, phone, email, or fax. For more information or to request a catalog see www.factorymation.com or call 1-800-972-0436.
