

FactoryMation Expands Variety of Power Supplies

Micron Industries Low Profile Power Supplies Now Available at FactoryMation

Canton, GA – May 2, 2018 – FactoryMation introduces Micron Industries' new Low Profile UL508 power supplies. These power supplies are UL- and cUL-listed with CE certification. Available models range from 24W to 100W with 24V DC output. Each model offers single-phase input with universal input voltage range from 90 to 264VAC. The power supplies include voltage stabilization to ensure they handle the inrush demands of industrial applications. All models are DIN rail mountable and offer short circuit, overvoltage, overload protection, and input noise filtering. The entire line's 60°C rating means that full power can be achieved with no derating for high temperatures. Additionally, every power supply is capable of parallel operation and features a green DC-ON LED status indicator. Starting at \$27, Micron power supplies are just another example of FactoryMation's commitment to offering an unmatched value for industrial control and automation products.

FactoryMation is a nationwide supplier of industrial control products including AC drives, Motors and Motor Controls, Enclosures, HMIs, PLCs, Sensors, and more. Through the cultivation of direct relationships with world-class manufacturers from across the globe, FactoryMation offers competitive pricing on high-quality industrial-grade products. Over 40,000 products are strategically stocked at their distribution center near Atlanta, Georgia and other conveniently located third-party warehouses ensuring that orders ship promptly and arrive when needed. Knowledgeable customer support is available to assist with product selection to make sure you get the items that best fit your application requirements. When considering product quality, availability, delivery, price, and support, you will see FactoryMation is committed to offering an unmatched value and why they should be your go-to source for industrial control and automation products. Orders can be made quick and easy via online, phone, email, or fax. For more information or to request a catalog see www.factorymation.com or call 1-800-972-0436.
