

FactoryMation Pushbutton Supply Expanded

New WEG Pushbutton Options Available

Canton, GA – August 30, 2017 – FactoryMation has expanded its offering of WEG pushbuttons to include new Multifunction Momentary and Emergency Stop pushbuttons. Each type of pushbutton is UL Type 4X and IP66 rated, includes a three-position mounting flange and locking ring, and features snap-on capability for easy installation or removal. The Multifunction Momentary type comes in two- or three-button varieties and accommodate four stackable contact blocks for the two-button or seven for the three-button models. This series is ideal for colorblind operators due to its high-contrast colors. The new Emergency Stop pushbuttons feature an EN418-complaint, 42mm E-Stop latching head. With both the Multifunction Momentary and Emergency Stop pushbutton styles starting at \$9, the new WEG pushbuttons are just two more examples of FactoryMation's commitment to offering an unmatched value for industrial control and automation products.

FactoryMation is a nationwide supplier of industrial control products including AC drives, Motors and Motor Controls, Enclosures, HMIs, PLCs, Sensors, and more. Through the cultivation of direct relationships with world-class manufacturers from across the globe, FactoryMation offers competitive pricing on high-quality industrial-grade products. Over 40,000 products are strategically stocked at their distribution center near Atlanta, Georgia and other conveniently located third-party warehouses ensuring that orders ship promptly and arrive when needed. Knowledgeable customer support is available to assist with product selection to make sure you get the items that best fit your application requirements. When considering product quality, availability, delivery, price, and support, you will see FactoryMation is committed to offering an unmatched value and why they should be your go-to source for industrial control and automation products. Orders can be made quick and easy via online, phone, email, or fax. For more information or to request a catalog see www.factorymation.com or call 1-800-972-0436.
