

## FMX launches new series of Miniature Breakers

*FactoryMation introduces FMX's new Miniature Breaker Series*

**Canton, GA – June 6, 2016** – FactoryMation is excited to introduce FMX's new MCB4 Series UL489 Miniature Circuit Breakers and MCB1 Series UL1077 Supplementary Protectors. FMX MCB4 and MCB1 Series miniature circuit breakers offer an easy to use, finger safe device for protection of industrial control components.

FMX MCB4 Series Miniature Circuit Breakers are UL489 listed for use in feeder, branch, component, and HACR protection applications. FMX MCB4 series breakers are DIN rail mountable, offer current ratings up to 63A, and are reverse feed capable. C and D curve models are available to suit a wide range of applications. 1, 2, and 3-pole models are available in 277VAC or 240VAC/60VDC. Priced from \$15.

FMX MCB1 Series Supplementary Protectors are UL1077 recognized for use within industrial control panels. FMX MCB1 series breakers are DIN rail mountable, offer current ratings up to 63A, and are reverse feed capable. B, C and D curve models are available to suit a wide range of applications. 1, 2, and 3-pole models are available in 277VAC/125VDC. Priced from \$7.
