

## FactoryMation's relay selection has expanded

*FactoryMation expands its FMX relay product selection*

**Canton, GA – January 18, 2016** – FactoryMation has expanded its FMX relay product selection to now include seal failure relays.

FMX seal failure relays monitor submersible pump seals for leakage. Single or dual channels are available to monitor 1 or 2 pumps. Additional features of the FMX seal failure relay include: a probe pulsed with a DC voltage to prevent electroplating, low profile adjustment knob, and simplified installation as relay fits into an 8-pin octal socket. Priced from \$58.

FactoryMation is a nationwide top supplier of many quality industrial control products including Enclosures, AC Drives, Motors and Motor Controls, Relays, Sensors, and more.
